

# Esther

Ziher-Ginczinger

BIO 2023

Esther Ziher-Ginczinger's (Netherlands) painting refers to small things in life which are the most important, such as love between two people, family, friendship, and comfort. Happiness, humor, and warmth are the elements of her paintings that she would like to imply to those people looking at them. The shaping of her own universe around humanised mascots, unique characters interacting in a brightly coloured, energetic world. The pleasure of painting is revealed in each work through a wealth of motifs and techniques (acrylic, oil paints, markers...) that show us an artist free of creative restrictions, as spontaneous and free as children. Esther borrows from childhood an incombustible joie de vivre and offers the viewer her desire to share it.

Esther's paintings have a recognizable style and are exhibited in prestigious collections around the world in cities such as Adelaide, Perth, Los Angeles, Philadelphia, Hong Kong, Shanghai, Shenzhen, Taipei, London...

Furthermore, prestigious magazines such as Navenant (The Netherlands), 365 artplus (Japan), Vogue (Taiwan), The Press (England) have reported about her impressive and colorful art.
